NEXTGEN
ILLINOIS

Young people are gathering to create a youth-lead policy agenda for our state government. Through the Illinois Next Generation Leadership Agenda, young people will share their ideas about Illinois' most pressing issues and work together to create change. Young Illinoisans, including current high school and college students, are all invited to participate.

We'll start with a series of in-person caucuses across Illinois to discuss key state-level political initiatives.

Then, in September, we will gather for a state convention to combine these ideas and vote on a youth-led agenda for Illinois. We will deliver our policy agenda to decision-makers, along with the message that thousands of young, active and informed voters are paying attention and committed to building a better Illinois!
