## **Observe a Mock Medical School Interview**

Professor Timothy Murphy from the UIC College of Medicine will conduct a mock medical school admissions interview in front of an audience to show an example of that important milestone in medical school admissions. The first part of the session will include an interview as nearly identical to the actual interview as possible. The second part of the session will be an open forum for questions about admissions interviews and the application process in general. Students who attend will have the opportunity to hear typical interview questions, listen to Professor Murphy's feedback and appraisal of the mock applicant, and ask questions following the interview.
