ENVIRONMENTAL SCIENCE, TECHNOLOGY & SOCIETY

FULL-TIME OR PART-TIME POSTGRADUATE MASTERS DEGREE

www.glasgow.ac.uk/dumfries

The MSc Environmental Science, Technology and Society examines the social, political and cultural implications of environmental science and technology.

You will learn to assess scientific and technological innovations as potential solutions to environmental issues, from a social science perspective. This programme trains professionals, decision-makers and students in the social implications of environmental issues, particularly in relation to technologies as potential solutions. You will have the opportunity to study alongside students on related postgraduate programmes. The programme is 12 months full-time or 24 months part-time.

The University of Glasgow

Founded in 1451, the University of Glasgow is the fourth oldest university in the English-speaking world. Today we are a broad-based, research intensive institution with a global reach.

Dumfries Campus

This degree is taught at our Dumfries Campus in south west Scotland. You will benefit from the academic excellence of one of the world's top universities in a friendly campus setting, surrounded by unique environmental resources, a lively arts scene and rich cultural heritage.
