University of Glasgow | School of Interdisciplinary Studies

Founded in 1451, the University of Glasgow is the fourth oldest university in the English-speaking world. It has an international reputation for innovative research and an outstanding commitment to excellence in learning and teaching.

The School of Interdisciplinary Studies is based in Dumfries, a vibrant university town two hours south of Glasgow. This small, welcoming school offers career-focused subjects in a friendly, collegiate environment where you'll settle in easily and become part of the friendly academic community.

Undergraduate degrees (four years)

- BSc Environmental Stewardship
 - MA Health & Social Policy
 - MA Primary Education with Teaching Qualification
- Additional electives are available in the Humanities and Modern Languages.

Postgraduate degrees (12 months)

- MLitt Environment, Culture & Communication
- MSc Environmental Science, Technology & Society
- MSc Tourism, Heritage & Development
- MSc Tourism, Heritage & Sustainability

"Scotland's a great point to travel from. The concept of being able study health in an international setting is perfect."

Rebecca Williams, Australia (Health & Social Policy)

- Rural tourism & stewardship

Health & Social Policy

- Health, wellbeing & sustainability
- Health policy & practice
- Social policy & practice
- Public sector systems management
- Research methods for social science
- Media, health & lifestyle

Education

Our courses focus on pre-school and elementary teaching. Explore Scotland's flagship Curriculum for Excellence and gain valuable international experience to enhance your teaching career.

Practical learning

The surrounding region is our classroom.

All of our courses include lots of practical learning. This might include field work projects, workshops, conferences, guest speakers from local, national and international organisations or integral work placements. **

Environmental students study in close proximity to resources such as a UNESCO Biosphere Reserve, Scottish Natural Heritage, Edinburgh Zoo, the Forestry Commission, and a range of renewable energy interests. We have a teaching garden on our beautiful parkland campus.

Health & Social Policy students develop close links to nearby health and social services, public sector policy-makers and third sector organisations, providing guest speakers and work placements. **

Education students benefit from our strong relationships with local and international schools, the Scottish Government and the local education authority.

*This is not an exhaustive list. Course availability may change from year to year. Please contact us directly for up-to-date advice.

**The availability of work placements may depend on visa regulations.

The university is rated top in the UK for social policy and top in Scotland for teacher training.

National Student Survey 2014

"Everyone's very friendly and open, and interested in where you come from. Dumfries has the feel of a real community."

Henriette Scholz, Germany (Environmental Stewardship)

Dumfries: a university town

Dumfries is a vibrant, welcoming regional town with a lively arts and festival scene, strong cultural heritage, and a wealth of sporting opportunities.

You'll become part of the local community as well as the student community. It's an inclusive place with a relaxed, sociable atmosphere.

The active Student Association organises a range of activities and charity events throughout the year.

Accommodation

We have four student residences in Dumfries, one on the campus and three in the town centre. They offer single, self-catering accommodation, most with en-suite shower rooms. Buses to the campus are regular, and there is a warden in each residence to offer support and advice.

Further information

If you are interested in studying with us please contact us directly for entry requirements and further guidance.
