

Dear UIC Pre-Meds!

Are you interested in getting a TON of patient experience at the #4 orthopedic institute in the country? Then keep reading! Midwest Orthopaedics is currently looking for 1-2 committed, compassionate, and diligent students to help enroll patients in our ongoing research studies.

Benefits:

- Behind the scenes access to the clinic workday
- Unique opportunities to form relationships with medical professionals
- Constant patient interaction
- Shadowing possible

Volunteer Responsibilities

- Fully inform patients face-to-face prior to their clinic visit about the research studies
- Aid in the completion of consent and clinical surveys using iPads
- Work with research team members to ensure successful completion of databases

Position Requirements

- Minimum TWO 3-4 hour shifts per week | semester long commitment.
- Monday - Friday. 830-noon OR 1-3:30pm¹
- Mandatory research training and certification will be provided prior to first day
- Tb 2-step test results

Application Instructions

If you are interested please email your answers to the following questions (Required) and an attached resume (OPTIONAL). Please limit responses to 100 words or less.

1. What skills, characteristics and/or experience do you have that make you a good fit for this position?
2. What is your availability? Please list all possible shifts.

Attach responses in a word doc/pdf with your **name, contact information** (cell phone & email), and **year in school**. Please email Michael O'Brien at nicholson.research@rushortho.com. Feel free to reach out if you have any questions!

DEADLINE SUNDAY AUGUST 28th, 2016

¹Clinic times vary in response to the challenges of the day. We are flexible and it is preferred you are too
